Recommendations:

1. It was noticed that no new courses were introduced during the assessment period i.e. from 2018-19 to 2022-23. So, some new courses may be introduced viz. Nepali, Hindi, Geography, History, Geology, subject to the approval from the higher authority as per rule.
2. Pass percentage in the last completed academic session seems to be comparatively low than the previous academic sessions, particularly in the B.A. honours programmes. Effective curriculum planning and delivery should be taken care by the authority and faculties to improve the activity.
3. Faculties are encouraged to involve more for research project funding as compared to one research project completed in the last five years.
4. More Publication in the UGC-CARE listed journal will be encouraged. Faculties are encouraged to engage themselves with more research activities besides their teaching related work as the research infrastructural facilities in the college is very good.
