

Programme Specific Outcome-English Honours

Acharya Prafulla Chandra Roy Government College at Matigara, Siliguri, is affiliated to North Bengal University of Siliguri. Hence, the various departments of the College follow the Curricula made by the said university. The College has little or no say in designing the Curriculum. However, The BOS (Board of Studies) is constituted of faculties from various affiliated colleges.

The Programme of English is made with a view to enhance the basic language ability of the students. The syllabus is vast and comprehensive, and it makes our students more equipped to handle every-day situations in English. The focus is not only on the study of literature but also acquiring the basic skills of the language.

The emphasis is particularly on the learning of British English literature. There is also some focus on literature made in other regional languages, like Hindi, Bengali, etc. Actually, study of literature has evolved over the years, and as a result, English literature is no longer only British literature. Literature in translation, made in other languages, is as popular and important as mainstream literature. We have in our syllabus texts from American, Caribbean, Indian and many other diverse linguistic, ethnic, and socio-cultural background.

The Programme-Outcome is going to be quite beneficial to students. They shall imbibe not only literary qualities but also get to know the finer issues of the English language. The emphasis is also on the communication skills. The Programme will make the students more equipped in their search for jobs. Students graduating from our college with English usually end up in Higher Educational Institutions across India. Some of them also take up professional courses like MBA, MCA, etc. Quite a few of them get jobs either in the public sector or in the private sector. Lastly, we can say that the Programme or Course outcome of BA Honours in English from our college is beneficial to most students. It shall make them young, energetic, bright and responsible citizens.
